

Online Social Group

Easy-read guide for
students, parents and carers

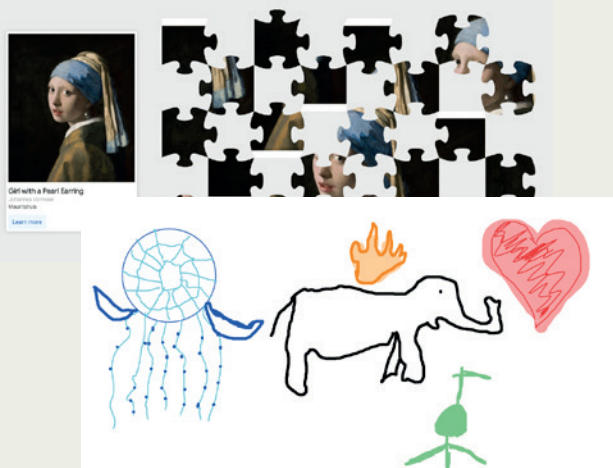

What is an online social group?

An online social group brings people together over the internet.

We can talk and interact together in a group video call using Zoom.

We can use virtual tools and websites to play games and do activities.

What will we be doing?

We will chat about things that interest the group.

This could include films, games, music or what is going on for us.

We will play fun games and quizzes chosen by the group.

You are welcome to bring a hot or soft drink to enjoy while we chat!

Who will take part?

The Online Social Group is for Upmo students who want to get together with friends.

It is also for students who want to meet new people.
